FOREWORD

OWING to the unprecedented demand for my Broadmoor Bungalow Book from all over the country since the close of the World War, I have found it necessary to issue an extra large Fourth Edition, which I believe will meet with the same popular approval of prospective home builders as has characterized my three other editions.

As the cost of material and labor has increased enormously since my former publications, the prices herein quoted are only approximate in this locality at the present time. Being a practical builder, as well as designer, I can assure the public that my plans will not only "work out" according to detail, but, with very few exceptions, have been actually built by the publisher in this vicinity, where they can be seen upon application. The houses shown are all practical, the designs having been selected from among several hundred house plans designed and built by the publisher during the past 12 years, and are strictly up to date, convenience being my principal aim and object in the drawing of all my floor plans.

These plans are not only adapted to the ordinary city lot, but also include many that will appeal to the builders in the suburban and country districts.

Many of these houses have been built several times from the plans and specifications given, and workmen will experience no difficulty in following them.

I desire here to thank the public for their generous patronage of my book and plans in the past, and will assure them that it will be my utmost endeavor to subscribe to their every wish and requirement in the future.

ORDERING PLANS

IF THE PLAN you select is satisfactory without change order by number only. If it is practically what you want, but requires slight changes to meet your requirements, send me a rough sketch of the changes, and I will make the necessary alterations before sending the plan.

Don't forget you are dealing with one who has had a large experience in actual construction as well as in planning work, and that I will gladly advise you on any matters you may put before me.

I wish to call attention to the fact that I am not confined to the sale of the enclosed plans, nor do I limit myself to the sale of drawings now in stock, inasmuch as I am fully prepared to incorporate your ideas in special work. If you wish to order special drawings, I would request that you inform me as to the locality in which you purpose to build, at the same time sending in your data as to the number of rooms and their arrangement, etc. For special plans, preliminary pencil sketches are always sent for criticism and alterations, and tracings are not completed until these sketches are approved.

Where the slightest change is to be made in the enclosed plans, it necessitates a new set of tracings which has to be prepared by an experienced draughtsman. Therefore, it does not make any difference whether it is a slight change or an entirely different design from any shown herein. It takes the same amount of labor to prepare the special drawing.

My plans are very complete and are easily followed by any competent mechanic. They consist of the following: A complete set of blue prints containing foundation, floor plan and elevations, details of kitchen cabinets, built-in features, arches, buffets, etc. Typewritten specifications to supplement the drawings are enclosed to cover the general conditions of the contract, such as excavating, masonry, carpentry, plastering, electrical work, plumbing, painting and other details.

Terms—My business is done strictly on a cash basis. No order will be filled unless accompanied by a remittance. This is an invariable rule, and is very necessary, on account of doing business in so many parts of the country, and is not intended as a reflection on your financial standing.

New plans drawn for \$40.00 and up to fit any lot.

One-story plans, 1 set with specifications, \$10.

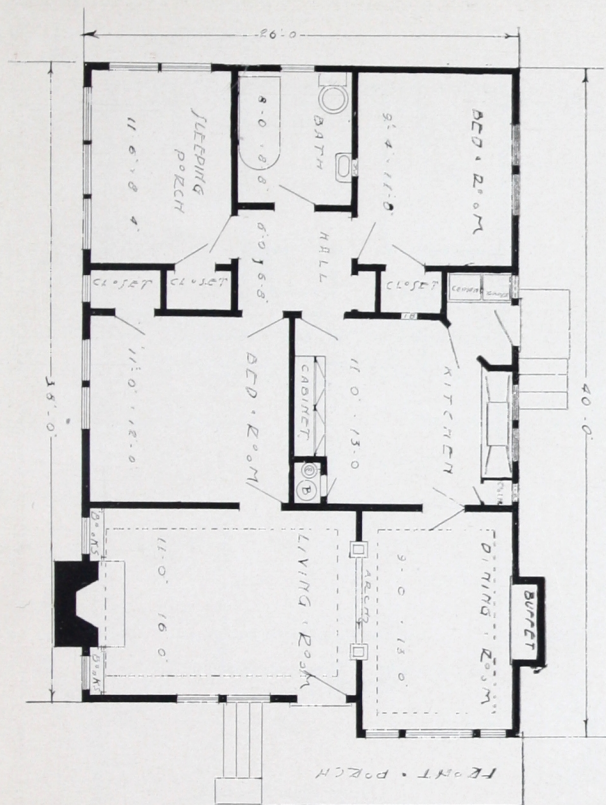

Two-story plans, 1 set with specifications, \$15.

Extra sets of blue prints, \$1.

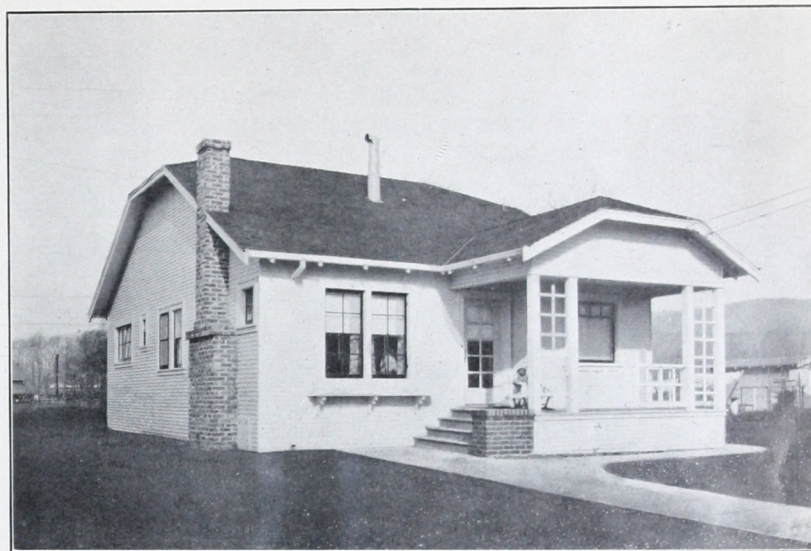

Changes in plans, \$5 per room.

Lumber lists, \$5.00.

J. B. PEPPIN, 86 Cambridge Ave.,
San Leandro, California.

No. 442-A.

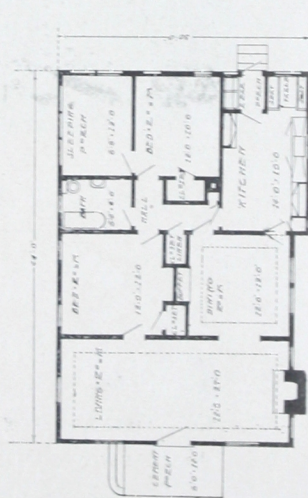

F. R. CALDWELL
Sales Manager
Broadmoor Office

No. 442-B.

These are known locally as the celebrated "Caldwell" floor plans. Mr. Caldwell, Sales Manager for Breed & Bancroft in their beautiful Broadmoor and Hollywood properties, has in collaboration with Mr. Peppin evolved a plan which has proved perfect from the salesman's point of view. He has sold about thirty of these houses before they were plastered, on the merits of floor plan alone. We have more than a dozen different exteriors, a few of which appear on these pages.

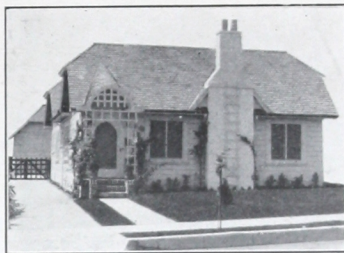

No. 442.

Builders and investors would do well to secure a set of these plans with different exteriors which can be used as a stock plan and yet looks entirely different. Complete set of plans, 8 exteriors and 2 different floor plans as shown, \$50.00. Estimated cost \$4500.00 to \$5500.00, according to construction.

No. 441-A.

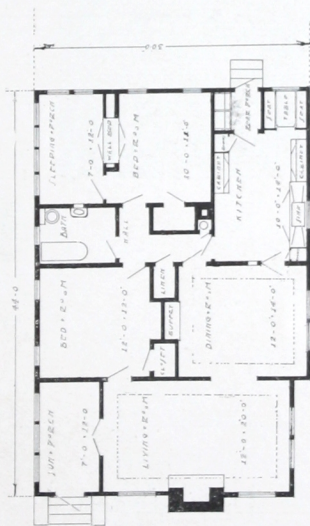

No. 441-B.

No. 441-C.

No. 441-D.

Note—This is Floor Plan for all four house numbers A, B, etc.

—used on cypress interior trim thirteen
years ago—still in good condition—

Says a prominent architect—

"In reply to your recent inquiry in regard to my use of Berry Brothers' Lacklustre, would say that I used this on cypress in two rooms of my house when it was built thirteen years ago. It is still in very good condition. I might add that the colors used were Flemish Green and Weathered Oak, and both have retained the color remarkably well."

Architect's name on application.

SAN FRANCISCO OFFICE, 330 CALIFORNIA ST.

F. C. H. ROBINS, Mgr.

The Dean Reversible Window Company's products are too well known to the building fraternity, as well as the general public, to need any special recommendation on our part. Sufficient to state that we manufacture in our San Francisco factory Dean Reversible Casements, Transoms and Double-Hung Windows for weights and cords.

We employ expert workmen, and use the best of material obtainable.

A common saying in our factory is, *"A Dean Sash gone from the shop is never heard from again, because it does not get out of order."*

The Soloelle IS positively the ONLY player piano that enables those not keyboard proficient to produce music that sparkles with tone-color, music that has all the feeling and technique of great pianists.

FIRST—THE SOLOELLE IS THE ONLY PLAYER PIANO THAT AFFORDS COMPLETE AND UNRESTRICTED CONTROL OF THE MELODY AND THE ACCOMPANIMENT SEPARATELY.

SECOND—THE SOLOELLE CONTAINS THE ONLY MECHANISM IN EXISTENCE FOR VARYING THE KIND, QUALITY OR CHARACTER OF TONE (TONE COLOR) AS DISTINGUISHED FROM THE VOLUME OR QUANTITY OF TONE (TONE GRADATION.)

Knabe Soloelle, Kohler & Chase Soloelle, Gabler Soloelle, Shoninger Soloelle, Andrew Kohler Soloelle, Pease Soloelle, Fischer Soloelle, Hobart M. Cable Soloelle.

\$650 to \$1350

Knabe and other Soloelle Grands, \$1500 up.

Terms if desired. Other instruments in exchange.

PABCO ROOFS

GUARANTEED for 10 and 20 Years

Experience has proven repeatedly that the original cost, spread over the period of years covered by the guarantee, makes PABCO ROOFS in reality the least expensive roofs because of the *low cost per year of service.*

Whenever a PABCO ROOF is laid according to specifications and has passed our *rigid* inspection, we issue our guarantee—without any “strings”—a guarantee in the strictest sense of the word, backed by the vast resources, responsibility and thirty-five years’ experience of THE PARAFFINE COMPANIES, INC.

PABCO 10 and 20 Year Roofs relieve you of worry and responsibility. We’ll gladly send specifications and complete details.

IVEYWOOD EXTENSION TRACT

Lots in this beautiful subdivision are being sold at specially reasonable prices, and upon very easy terms.

Nearly every lot has several choice, full-bearing fruit trees on it.

The street work on the tract is the best that can be installed. Cement curbs, sidewalks, water mains, sewers, gutters, macadamized streets, practically all complete. Gas and electricity on the tract.

Southern Pacific Electric Trains go through the center of the tract.

No Interest nor Taxes for One Year
